DEAR FRIENDS AND COLLEAGUES!

The role of the family in the fight against drugs can never be over-emphasized. Providing strong and safe conditions for our children to grow up makes it possible to turn drug abuse into a marginalised phenomenon in the society. The choice of drug policy is of great importance for families who need to feel the support of the society at large to zero tolerance for illicit drugs.

As always, we focus on restrictive and humane drug policies based on the UN Conventions on Drugs. ECAD's annual conference is for those who have not given up the fight to give our children the chance to grow up in a drug-free society.

Welcome!
